Regression

Variables Entered/Removed[a]

Model	Variables Entered	Variables Removed	Method
1	Assessed_Value[b]	.	Enter

a. Dependent Variable: Sales_Price

b. All requested variables entered.

Model Summary

Model	R	R Square	Adjusted R Square	Std. Error of the Estimate
1	.833[a]	.694	.677	19.1792

a. Predictors: (Constant), Assessed_Value

ANOVA[a]

Model		Sum of Squares	df	Mean Square	F	Sig.
1	Regression	15008.113	1	15008.113	40.800	.000[b]
	Residual	6621.155	18	367.842		
	Total	21629.268	19			

a. Dependent Variable: Sales_Price

b. Predictors: (Constant), Assessed_Value

Coefficients[a]

Model		Unstandardized Coefficients		Standardized Coefficients	t	Sig.
		B	Std. Error	Beta		
1	(Constant)	32.738	25.800		1.269	.221
	Assessed_Value	.875	.137	.833	6.388	.000

a. Dependent Variable: Sales_Price
